SKILLS

Languages	Java, Javascript, Python, HTML, CSS, Haskell, Prolog, Ruby
Frameworks	React, ECLiPSe
Tools	Git, AWS, LaTeX
Soft Skills	Teamwork, Communication, Detail-Oriented, Accountability, Reliable

PROJECTS

Portfolio Website Javascript, HTML5, CSS, PHP   [GitHub]

- Created a Contact Form using PHP to allow visitors to E-mail me directly through the website.
- Placed 2 icon buttons that linked to my other media, including LinkedIn and GitHub.
- Hosted 2 web apps including a To-Do List and Conway's Game of Life.
- Utilized a BootStrap template by ThemeSINE.

To-Do List WebApp JavaScript, HTML5, CSS   [GitHub]

- Outlined an event form to track new To-Do list tasks.
- Tracked description, date, time, and completion of each task.
- Implemented the date-fns library for time and date management of each task.

Conway's Game of Life Java App Java, Swing   [GitHub]

- Assembled a user-inputted start state to "play" Conway's Game of Life.
- Produced a grid of buttons using action listeners to create the start state, play button, and stop button.
- Designed custom GUI using Java Swing.
- Followed Object-Oriented Programming principles when implementing the Game of Life rules.

EXTRA-CURRICULAR ACTIVITIES

- Participated in the 2020 GMTK Game Jam.
- Performed in 10 theater productions as an actor, cellist, light designer, and set designer.
